

PSI Supply Chain Solutions, LLC

Contract Management System

PSI Supply Chain Solutions' **Contract Management System** is designed to house and manage contractual relationships that exist in your organization.

Examples include:

- Purchase Agreements
- Service Agreements
- Personnel Agreements
- Property Agreements

Hospitals and Health Systems are under mounting pressure and are held to regulatory standards to manage any and all contractual obligations and relationships, failure to do so can cost the organization hundreds of thousands if not millions of dollars. With **PSI Supply Chain Solutions' Contract Management System** your organization will have a repository to house and manage your contractual relationships. At a fraction of the cost of any comparable software our Contract Management System will:

- Improve Contract Compliance
- Eliminate Unwanted Renewal or Contract Termination
- Notify Necessary Parties of Upcoming Renewals to Improve Negotiations
- Highlight Key Terms and Contractual Language
- Provide Secure User Based Access to View and Edit Agreements
- Multi-layer Redundancy for Document Protection

Additional Features and Benefits:

- Contract Performance Dashboard for Management of Contract Renegotiations
- E-mail Notification to Key Stakeholders of Contract Renewal Period
- Tracking of All Contract Information Adjustments in System
- Point and Click Software Design for Ease of Use
- Customizable Software Setup to Meet Facility Requirements
- Secure Storage of Information
